A light-weight multi-purpose jib (Item No. 8240-0)

The Jib 100 is a very versatile piece of equipment that can be used for a broad range of camcorders. Like all ABC Products equipment, it can be reduced to very small packing dimensions and assembled within minutes which make it the perfect equipment for use on the run. The features include integrated horizontal and vertical brakes as well as a fine trimmer to level the jib continuously and precisely. Furthermore, the Jib 100 provides a euro mount adapter at the jib head that permits to mount offset ball adapters, remote heads and many more accessories. The crane support can be set on every tripod with ball adapters of 100 or 150mm diameter (optional with euromount adapter).

Technical data:

weight:	19kg/ 41.8 lb
transport dimensions (approx.):	150x35x24cm/ 59x14x9 inch
