MT GRIP KIT

DESCRIPTION

The MovieTech MT GRIP KIT is a modular construction kit that offers you a wide range of assembling possibilities. The variable tool set for you daily needs.

The MT GRIP KIT SET can be mounted in a three or four leg version with studio or track wheels. You can easily build a strong spoke base, dolly or rolling spider with minutes. You can use it with the Rocker Plate mount for a low camera position and tilt angle.

A wide range of accessories such as levelling legs, seat arms and bazookas offers many functional features for all professional requirements.

HIGHLIGHTS

DIFFERENT VERSIONS

MT Grip Kit Studio:

Das MT Grip Kit is suitable for a quick and uncomplicated use on plain studio floors. The silent and smooth studio wheels are equipped with brakes. The Grip Kit can be used with three, four and five arms. The 28 mm receiving bores allow a wheel change in seconds.

MT Grip Kit on Wheels:

For the use with Master- and Movie tracks, the MT Grip Kit Skateboard wheels are available. The curling's are made of hard rubber. The fitting is easily possible by the universal receiving bores in a short time.

MT Grip Kit with levelling legs:

The levelling legs are available in two lengths of 55 mm and 150 mm adjustment range. The levelling legs allow equalizing small roughness's in the floor as well as bigger holes in the surface. Counter nuts guarantee a stable positioning. The bottom pans are pivoted by ball ends.

MT Grip Kit flexible by assembling:

The MT Grip Kit offers various options to fit accessories and adapts to shooting conditions. The arms can be mounted in 12 positions each 30° out of 360° at the central basis by M12 allen screws. Simultaneously 6 arms can be mounted.
